Forecast for Friday 25 Nov 2022

Weather: Often dry and sunny through the early morning. Cloud building to bring some showers late morning and early afternoon, some likely heavy with a slight chance of thunder. Becoming mainly dry and brighter again later in the afternoon but feeling cool in the blustery winds. Increasing cloud spilling in from the west on Friday evening with the odd shower possible.

Chance of cloud-free hill tops above 600m: Generally greater than 95%, but 70% in any showers.

Low cloud and visibility: Low cloud associated with showers will bring occasional patches of cloud around 500m at times. Visibility will be moderate in any heavier showers but will be very good or excellent outside of them.

Meteorologist's View

Strong winds during the day around summits and feeling very cold in showers.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Fri 25 Nov 2022	21.2mm	51.6mm	53mm

Forecast for Saturday 26 Nov 2022

Weather: Cloudy overnight but mostly dry, mist and fog patches forming around dawn. It will become a dull morning with cloud increasing and some drizzle, mainly in the west, dry for much of the rest of the area. Rain and gales spreading east in the afternoon with most places wet by mid-afternoon. Rain is likely to become persistent and heavy by the evening, perhaps some breaks further west by late evening.

Maximum wind: Southerly 35-40mph with gusts 45-55mph.

Chance of cloud-free hill tops 600m: 80% at first, reducing to 30% as cloud thickens during the afternoon.

Low cloud and visibility: Patches of low cloud turning more scattered above 500m in the morning with visibility below the cloud turning moderate during the morning, cloud will lower and thicken in the afternoon. Southern areas will see more breaks and less cloud in general. By mid-afternoon persistent broken cloud above 400m is likely for most areas and in the rain visibility is likely to be poor at times.

Temperature: **Valleys:** Plus 11 Celsius.
At 600m: Plus 6-7 Celsius.
Freezing level: Above all summits.
